SUMMARY

Hi, I'm Kyle, a Computer Science student at UNO with full-stack development experience and a focus on cybersecurity. Proficient in React, Python, JavaScript, and database management through projects like mobile applications and network programming. Seeking opportunities in Cybersecurity, Software Development, or Full-stack Development roles.

PROJECTS

Mobile-POS-system

React Native/ JavaScript
Collaborated with team to develop mobile POS app with user authentication, categorized item lists, theme customization, and tab/payment functionality.

Forecast-App

Java/ GUI Development
I built a simple weather app that fetches and displays the current weather conditions for a given city.

TCP-Turn-Based-Combat

Python/ Socket Programming
I created a multiplayer turn-based combat game using TCP socket programming to handle real-time player interactions. Implemented server-client architecture. Features include character selection, skill systems and RNG battle mechanics.

Portfolio and Interactive game

css/ html/ JavaScript
Designed responsive portfolio and interactive game websites with animations, interactive elements, and optimized performance across devices.

SKILLS

Languages

English, Tagalog

Programming

Java, Python, HTML, Javascript, CSS, SQL

Frameworks & Technologies

React, React Native, Node.js, MySQL, Git, REST APIs

Soft Skills

Detail-Oriented, Teamwork, Leadership, Adaptability, Communication, Reliability

EDUCATION

Salmen High School

High School Diploma
2016 - 2020

Northshore Technical Community College

Associates in General Studies
2020 - 2022

University of New Orleans

Bachelors Degree in Computer Science
2022 – 2025

WORK EXPERIENCE

Sushi Chef

Koi's Asian Cuisine | 2019 - 2020

- Learned to work in a very busy environment while keeping the quality of what I'm making.

Contracted Skills Apprentice

CDIT LLC | 2020 - 2021

- Learned some basic programming languages like Python and Java.

Barista

Starbucks | 2020 - 2025

- Skilled in costumer services and work as a team
- Learned how to work under pressure and multitask.
